WORK EXPERIENCE

Generative AI Intern

Feb 2026 - April 2026

NCAI UET, Lahore

- Engineered GenAI workflows and optimized LLM applications via advanced prompt engineering.
- Developed backend integration strategies to connect LLMs with external data sources and APIs

Game Development Intern

June 2024 - Sep 2024

MLabs, Lahore

- Worked on a 3-D Hypercasual game based on slingshot mechanism using C# and Unity platform
- Collaborated in an agile team environment to deliver development tasks

Freelancer

Sep 2025 - present.

Self Employed

- Delivered 10+ full-stack and AI projects to clients using MERN, Python, and other tech stacks
- Provided comprehensive technical documentation and user training for all project handovers

PROJECTS

Animal Species Classification using Vision Transformer (ViT)

Trained a PyTorch-based ViT model for multi-class classification, achieving 98.04% SOTA accuracy. Authored a *conference paper* on methodology and performance for enhanced interpretability.

Quantum IR Extraction (NLP / LLM)

Engineered an AI system to automate the extraction and explanation of complex quantum information retrieval equations from uploaded technical documents.

EDUCATION

Bachelor of Science in Computer Science

University of Engineering and Technology (UET), Lahore

- GPA: 3.626, Expected Graduation: 2027
